About URBAN COMPASS

Urban Compass was formed in partnership with Verbum Dei High School and 112th St. Elementary School to combat poverty and violence and make a difference in the lives of children in Watts. Together we engage young children and offer them an environment that challenges them and helps them envision and create a rewarding future.

Urban Compass operates after-school and summer enrichment programs at Verbum Dei High School to serve students from 112th Street Elementary School and Sage Child Care Center. We provide tutoring support, enrichment activities and field trips to keep the children engaged in a positive learning experience – and off the streets.

Our after-school program is made possible by the help of volunteers from local high schools and universities who assist in the operation of the program. Our volunteers help tutor the students in the after-school program and also serve as mentors.

The Urban Compass vision is supported by partnerships with local schools that enable us to create programs that are specifically tailored to the needs of the community. We provide a stable and consistent presence in participants' lives, from kindergarten through high school and into college. Through the help of local university students, faculty members and professionals, we introduce participants to the possibility of going to college and beyond.

Urban Compass is a 501(c)(3) nonprofit corporation.
